Design System

PROFESSIONAL EXPERIENCE

Mid UX/UI Designer, Dalfin.ai, Kathmandu

May 2026 - Present

- Conduct research and gather continuous feedback to inform design decisions, translating complex AI capabilities into intuitive, user-centered interfaces.
- Use AI code-generation tools to build production-ready interfaces, auditing output against the PRD to close gaps in scope and logic.
- Lead design reviews and iteration cycles with developers, refining flows and ensuring accurate implementation before release.

Associate UX/UI Designer, Codavatar, Kathmandu

August 2024 - May 2026

- Conducted research and gathered feedback which informed design decisions and led to more user-centered solutions.
- Maintained design consistency through adherence to style guides and design systems, which reinforced brand identity and visual coherence.
- Collaborated with developers to ensure the accurate implementation of designs, resulting in a smoother development process and alignment with design goals.

UX/UI Intern, Codavatar, Kathmandu

March 2024 - August 2024

- Assisted in designing user interfaces which contributed to the creation of engaging and visually appealing web and mobile applications.
- Participated in team meetings and design reviews which provided constructive feedback and contributed to refining design solutions.

Frontend designer/developer Intern, Majestic Marketing, Kathmandu

December 2023 - March 2024

- Learned and Understood about the front end technologies, product design and project management.
- Worked on coding and debugging frontend features to ensure smoother performance.

EDUCATION

Bachelor of Information Technology

2019 - 2024

Patan Multiple Campus, Lalitpur
